

表二

105學年度 商學院 英語授課課程大綱

課程名稱 Course Title <input type="checkbox"/> 模組 <input type="checkbox"/> 個別	(中文) 初級會計學(二) (英文) Fundamental Accounting (II)																								
課程目標 Course Objectives	<ul style="list-style-type: none"> • Describe the nature and purpose of accounting for business. • Comprehend accounting terminology and basic concepts underlying financial accounting. • Recognize that accounting is not a precise science but relies heavily on judgments and estimates. • Account for common elements of the financial statements and prepare simple financial statements. • Perform basic financial statement analysis and interpret financial reports. 																								
課程大綱 Course Description	This course is designed to provide a basic understanding of financial accounting and covers various financial accounting topics, including basic accounting theory, accounting principles, procedures to record business transactions, measurements of assets and liabilities and preparations for financial statements. More importantly, students will learn how accounting information assists financial statement users in facilitating their decision making.
