1. I've connected with a fellow student named Antonio Passeretti from LUISS Guido Carli University Business School in Italy. Our communication began on May 20th, 2023. I've attached a capture of our email exchange for your review.

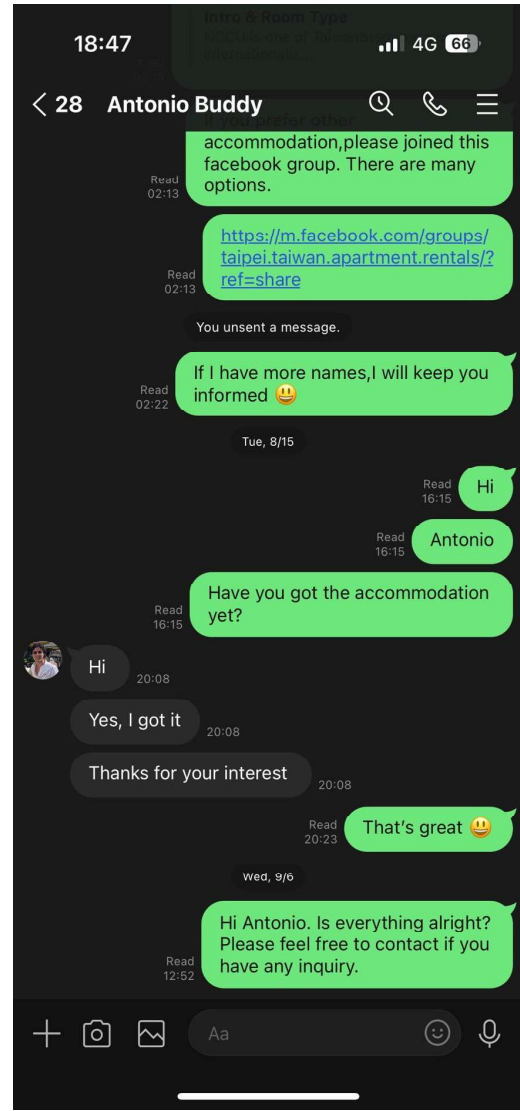

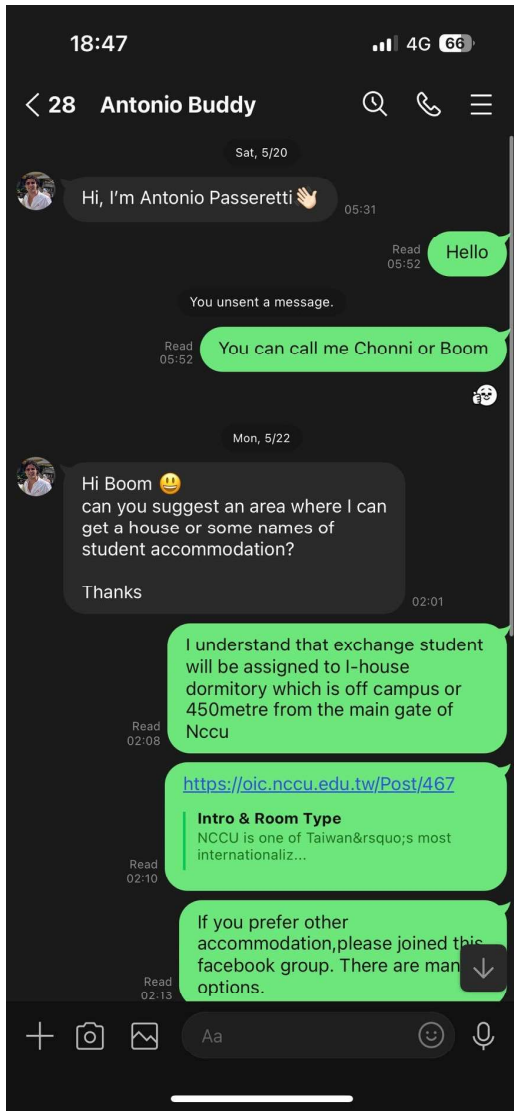

2 & 3

On the same day I sent Antonio Passeretti a greeting email, he reached out to me, inquiring about accommodation information. In response, I provided details about the i-house dormitory and shared a Facebook page with additional housing options. In August, as the semester approached, I followed up on his accommodation status and learned that he had secured housing. As the school opened in September, I contacted him once more to ensure everything was going smoothly and offered assistance if needed. Unfortunately, I did not receive a response, and concerned about potentially causing any inconvenience, I refrained from sending multiple messages. Despite attempting to locate him in classes including IMBA gathering events, I was unable to do so, and I am uncertain if he is still enrolled in any IMBA courses. I hope for an opportunity to meet him in the near future.

The LINE conversation capture is provided below.
