Students Id: 99933043

Exchange partner school: INCAE Business School (Costa Rica)

Period: 15th August – 2nd October

Re: E-paper Volume 3

It turned out that classes which I came for like „Sustainability Management” and „Operations Management” in last minute where changed from English to Spanish. We (exchange students) were offered simultaneous translation, but to be honest I felt like on G20 summit about carbon emission and the together with the Spanish slides the classes didn't bring any value. I decided to drop 3 courses out of 6 I enrolled to. In addition next term offered only 2 courses in English so I decided to finish my exchange earlier and travel in South America later on.

Together with other exchange students we decided to rent a car and go for a trip to region called Monte Verde. It is famous of its canopy adventure and national park. The canopy was really amazing experience, but in a result turned not well to me as my previous neck injury revealed again.

Second year students organized event called “Noche des Commendantes” which is a big event for freshmen. All 2nd year are dressed in black and they in the late evening go to houses of 1st year and take them to campus hall, where they show them presentation. The presentation is to show the first year of struggle, competition, difficulties and failures. Many people had to leave the school because of school policy about 6 x C and it was a very sentimental moment for many of the people. After all there was a big party with free drinks and I learned a bit how to dance salsa.

After this event I went for one week for a trip to Nicaragua. I didn't have any plan so it was very spontaneous trip with backpack. I met on my way in the bus a nice German guy with whom I spend whole week visiting new cities and doing crazy things like volcano boarding from active volcano Sierra Negra. We also had many interactions with local people which were very nice and once we even end up in the afterparty of a fashion show.
